Can presses

Pneumatic press type DP 440
Electric press type DEL 440

Very low space requirements
Easy handling

• economical • efficient • compact • mobile

One of the most important challenges we are confronted with nowadays is the protection of our environment.

We have designed the DP 440 and DEL 440 can presses in order to master this very task.

DP 440 and DEL 440 presses are space-saving and mobile and can be used for pressing all commercially available metal tins with a height of up to 450 mm, a diameter of up to 360 mm and a capacity of up to 30 l. The presses can be used in large-scale kitchens, restaurants, hospitals and paint shops, etc.

Advantages:

- Up to 80% volume reduction
- Reduced disposal costs
- Savings in storage space
- Fast amortization
- Clever recycling
- Active protection of the environment

Design:

- Practical shape
- Vibrationless stability thanks to three-point bearing on rubber-metal connection
- Absolutely jerk-free pressing operation due to specially developed control system
- Ergonomically arranged aperture for loading and unloading
- Connection for suction of detrimental vapours
- Economical operation due to adjustable press stroke and pressure
- Patented three-point guide of press cylinder
- Automatic return to loading position upon termination of pressing operation
- Low noise level
- Straightforward and safe usage (TÜV-GS tested)
- Maintenance-friendly
- 3 different transport facilities: collapsible travelling mechanism, suspension hook and handles

Technical data		
	Pneumatic press, type DP 440	Electric press, type DEL 440
Height	1130 mm	1130 mm
Width	530 mm	530 mm
Press stroke	440 mm	440 mm
Pressing force	2.07 t	2.70 t
Operating pressure	5.0-6.5 bar	70 bar
Weight excluding travelling device	108 kg	130 kg
Weight including travelling device	111 kg	133 kg
Air consumption	60 - 90 l	-
Motor output	-	220 V/0.9 kW
Frequency	-	50 Hz
Intensity of current	-	6.2 A
Feed wire	diam. 9 mm I.W.	-
Connection	plug nipple 1/4"	-
Cable length	-	2.5 m
ACCESSORIES		
	collapsible travelling device	collapsible travelling device
	pressure regulator with water collector	
	connection R 1/4"	
	Air hose, diam. 9 mm x 5 m
